WHAT TO DO IN 22

22 unmissable places and
experiences for the year ahead

World Class

TRAVEL THE GLOBE TO THE MOST EXOTIC PORTS AND UNTOUCHED DESTINATIONS WITHOUT EVER LEAVING HOME

Captivating around-the-clock views; remote ports of call and a home away from home. *The World*, the only residential ship of its kind, offers a private yacht and luxury vacation residence all in one – and is appealing to the shifting ideals of the luxury traveller with its enriching expeditions and exclusive lifestyle onboard.

RESIDENCES AT SEA

The World may be the largest residential ship in the world, but the intimate atmosphere onboard is more akin to being on your very own private super yacht. With an average of 150 to 200 residents, *The World* has only 165 residences, ranging from studio to three-bedroom apartments, offering the utmost exclusivity and privacy – the new premium in luxury travel. Demand is so high for *The World's* permanent residences at sea, in fact, that there are currently waiting lists to join the international community onboard. With their very own furniture, wardrobes – and even art collections – onboard, residents of *The World* always have a luxurious home to return to after a day's exploration. All they have to do is board at their chosen port, without the hassle of unpacking, and journey for as long as they wish.

SEE THE WORLD

With remote travel on the rise, and the luxury traveller eager to travel further than before, residents and guests yearning for adventure will find their wanderlust sated with *The World's* spectacular 2022 itinerary, which begins in San Diego, California, on New Year's Day, and finishes in Dubai on New Year's Eve. *The World*

will escort residents to some of the most raw and untouched parts of the globe, including journeying to the world's most beloved destinations across North America, South America, the South Pacific, Europe, North Africa and the Middle East. Two rare 15-day back-to-back expeditions, led by teams of local and world-renowned experts, allow residents to explore with even more depth than they ever thought possible: the first in the Tuamotu Archipelago and the Marquesas of French Polynesia, followed by a second among the fascinating people and natural wonder of the Austral Islands. Later in the journey, the third expedition visits the land of fire and ice to discover the captivating raw beauty of Iceland.

LIFE ONBOARD

The World is truly a melting pot of different cultures: a diverse group

of more than 150 residents from 20 countries own the homes onboard and have a thirst for knowledge, adventure and travel. The in-depth expeditions and one-of-a-kind experiences residents select are complemented by anticipatory and impeccable service customised to their preferences. Residents also benefit from world-class amenities and facilities, including impeccable culinary mastery in six restaurants, exceptional golf facilities with onboard putting greens, the only full-size, regulation tennis court at sea, swimming pools, a spa and a fitness centre complete with personal trainers. A truly unique and exclusive lifestyle that exists nowhere else on earth. †
