# **THE WORLD RESIDENCES AT SEA**

**The World, the largest privately-owned residential yacht on earth (aboardtheworld.com), returns to Europe this spring to explore the enchanting Mediterranean, undertaking a deep exploration of both Western and Northern Europe including the cultural capitals and iconic cities of Barcelona, Bordeaux, Venice, Dubrovnik and Rome.**

A 12-day summer expedition to the Svalbard Archipelago, just 600 nautical miles from the North Pole, offers prime viewing of Arctic wildlife. In autumn, an exploration of the British Isles beckons with its remarkable combination of history, rugged coastlines, and visits to Scotland's finest single malt whiskey distilleries.

In the last few months of the year, The World traverses the Mid-Atlantic from the Canary Islands to South Africa via the remote Overseas British Territories of volcanic Ascension and St. Helena. These tiny but diverse sub-tropical islands and surrounding waters are home to endemic birds, fish and plants found nowhere else on the planet. The well-preserved ecosystem attracts a variety

of marine life and the ocean teams with dolphins and whales.

The World is home to 165 private Residences owned by a diverse group of Residents from 19 countries who share interests in world cultures, history and adventure, and exploring fascinating destinations. They circumnavigate the globe every two to three years following an extraordinary itinerary that they select. A lifestyle aboard The World allows its Residents to explore the planet's most exotic and remote locales, as well as

more cosmopolitan ports of call – all from the comfort of home. It is the ultimate combination of luxury travel with world-class dining, custom experiences and enriching cultural events – all designed to 'bring the destination alive'.

All Residences on board The World are privately owned with a small selection available for re-sale every year.
