Imagine waking to a new port of call every few days from the comfort of your own bed surrounded by your own belongings and family photos and never needing to pack or unpack. Everything is waiting for you each time you return. Whether it's a fully stocked refrigerator with your favorite rum raisin ice cream or a fragrant flower arrangement neatly displayed in the foyer.

Let sail to the planet's most alluring and remote locales on *The World*, the only privately-owned residential ship on earth. Embodying a distinctive, one-of-a-kind lifestyle of exclusive luxury travel, *The World's* Residents

The strikingly beautiful 644-foot Ship, features 165 homes owned by 142 families from around the world. It offers gracious and personalized service in a warm, inviting ambience akin to that of a private yacht or exclusive country club. Much like a six-star resort, *The World* offers high-end facilities, luxurious amenities and unrivalled personalized service. ♡

*The World* continually circumnavigates the globe offering truly unique travel experiences. In addition to the in-depth exploration of ports and regions; typically two to three expeditions a year are planned to some of the world's more exotic and remote locales. At the start of 2016 *The World* completed a once-in-a-lifetime expedition to Antarctica, South Georgia and the Falkland Islands to explore century-old icebergs, glaciers and wildlife. Residents took hundreds of photos of whales, seals, and penguins; the latter jumping from ice floes into the glacial water or helping new-born chicks emerge from their shells. *The World* will spend the spring and summer months in 16 European countries – exploring everything from the wine chateaux of France to the castles of Denmark to the glorious ports of the Mediterranean. Passing through the Suez Canal and on to destinations in the Middle East, India, Maldives and Malaysia, *The World* will undertake a 12-day expedition in the highly tropical island of Borneo, home of one of the planet's oldest rainforests. The year will end with a call to Western Australia and a New Year's Eve fireworks celebration over Sydney Harbor. ♡
